Introduction

Thank you for using Sidify Deezer Music Converter for Mac!

[Sidify Deezer Music Converter for Mac](#) is one of the most popular music tools that helps you download any playable music from the Deezer. It's specially designed for converting Deezer music, albums, artists, and playlists to MP3, AAC, WAV, FLAC, AIFF or ALAC format. Also, it can be used to convert local audio files to MP3/M4A/FLAC/WAV/OGG and edit ID3 tags.

Compared to other similar programs, Sidify is the King concerning the output audio quality. Sidify keeps up to Hi-Fi audio quality after conversion and retains ID3 tags. Moreover, it's a 100% clean and safe program, with no request to install any extra app except for the Deezer app.

By now, it is fully compatible with macOS 10.15-14. With a simple and concise interface, the Sidify Deezer Music Converter for Mac is easy to use. It works with the Deezer Web player. Once you launch Sidify Deezer Music Converter, the Web Player of Deezer will pop up automatically. Run the Sidify on your PC, open a playlist, and select the songs you like to download, click the Add button to add to the conversion panel, then in "Settings", choose MP3/AAC/WAV/FLAC/AIFF/ALAC as the output format and select the output folder, click the Convert button and Sidify would soon starting exporting Deezer music to your local computer.
